

THE UNIVERSITY of TEXAS

SCHOOL OF HEALTH INFORMATION
SCIENCES AT HOUSTON

A part of The University of Texas Health Science Center at Houston

Undergraduate Research Assistants

Wet Lab

Experienced mentor seeks students for research labs beginning in January 2009. Research experience in the lab has led to recommendations for medical school for premed students and successful enrollment at the University of Michigan, Tufts University and Washington University St Louis.

Qualifications required:

- strong academic credentials
- some experience in molecular biology
- enthusiasm for cutting edge biomedical research

Job description:

- 8-15 hrs per week (M-F)
- pay will be based on prior experience, in the range of \$8.5 to \$11/hr
- duties: routine lab tasks such as buffer and media preparation, some mouse handling, some molecular biology work such as PCR

For consideration, send resumes directly to:

Angel W. Lee, M.D., Ph.D.

Associate Professor

Laboratory of Systems Biology and Informatics

School of Health Information Sciences and

The Brown Foundation Institute of Molecular Medicine
